ABOUT ME

Turning Vision Into Products

I own the full product lifecycle: from discovery and opportunity sizing to roadmap, delivery, and adoption, partnering with engineering, data science, and design to ship AI capabilities that customers and stakeholders actually use.

I specialize in AI/ML product strategy, data and platform strategy, and 0-to-1 through scale execution. I define the problems worth solving, translate them into crisp product requirements and success metrics, and run a hypothesis-led, experiment-driven approach to de-risk ambiguity.

My focus is on responsible, production-grade AI: pragmatic roadmaps, clear guardrails for safety and compliance, and measurable impact on engagement, efficiency, and revenue.

My Journey Map

Let's Talk →

CAREER

15+	17+	5
Years of Experience	Products Shipped	Industries Covered

BUSINESS IMPACT

$12M+	$80M+	$15M+
Program Revenue Delivered	Solutions Architected / RFPs Led	Sales Pipeline / Deals Influenced

ASK BEFORE YOU EMAIL

Not sure if I'm the right fit? Ask my AI twin.

A Claude-powered version of me, grounded on my real career. Ask about the AI products I've built, my product/data background, or whether I'm a fit for your role. Then email the real me. Five questions per hour, resetting automatically, so make them count.

Sankar's AI twin ONLINE

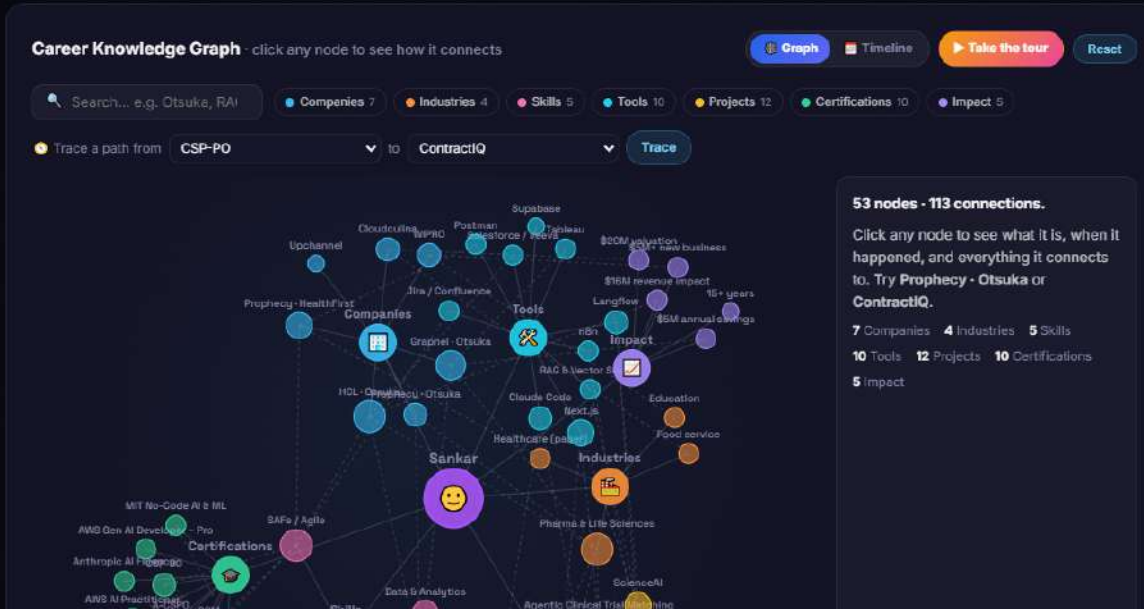

5 messages left this hour

Hey, I'm a Claude-powered version of Sankar, grounded on his real career. Ask me anything, or tap a starter below.

What have you built with AI? | Pharma/healthcare experience? | Fit for an AI PM role? | What makes you a strong AI PM? | Biggest enterprise win? | How do you approach 0-to-1 AI product strategy? | Proven enterprise track record?

Ask something... ASK →

Grounded on my real career, not a guarantee of accuracy. For anything specific, email me directly.

PORTFOLIO

Projects Delivered by Functional Domains

Real products built and shipped across industries, from publishing and healthcare to pharma and consumer tech.

Project names anonymized for client confidentiality · Outcomes from internal program reporting

OTSUKA AMERICA PHARMACEUTICAL
MEDICAL AFFAIRS · 2025 – 2026

InsightMD – AI Medical Affairs Insights

AI product mining medical, clinical, and field-engagement data to surface new drug insights for MSL and Medical Affairs teams, using NLP and ML to detect trends and knowledge gaps.

🧠 ~60% faster insight discovery + Stronger scientific engagement + Compliance maintained

HEALTHFIRST
PROVIDER MANAGEMENT · 2022 – 2025

ProviderIQ – AI Provider Lifecycle Management

AI-driven PLM platform automating provider onboarding, credentialing, claims processing, and compliance tracking, integrating structured healthcare data across enrollment workflows.

⚡ ~40% faster onboarding + ~80% claims accuracy + Compliance tracking automated

OTSUKA AMERICA PHARMACEUTICAL
CLINICAL TRIALS · 2017 – 2018

TrialHub – Custom CTMS

Custom Clinical Trial Management System centralizing site selection, enrollment tracking, milestone monitoring, and document control, integrated with EDC, regulatory, and safety systems.

🏥 50+ sites centralized + ~30% faster setup + GxP / 21 CFR Part 11 audit-ready

CLOUDCULINA · FOOD SERVICES · 2016

Cloudculina – At-Home Chef Platform

Platform matching customers with vetted chefs based on cuisine preferences, dietary needs, and budget, with streamlined onboarding, scheduling, and secure payments.

💰 25% cost reduction + 40% repeat customers + 75% profitability uplift

UPCHANNEL · CONSUMER TECH · 2015

AppCow – Android App Marketplace

Android app store connecting developers and users through a unified storefront with secure payment processing, catalog management, and purchase-based app entitlement at scale.

🚀 500+ apps at launch + ~99% transaction success + ~40% faster developer onboarding

MCGRAW-HILL EDUCATION
PUBLISHING & EDTECH · 2010 – 2014

BookSense – Publishing Feasibility Predictor

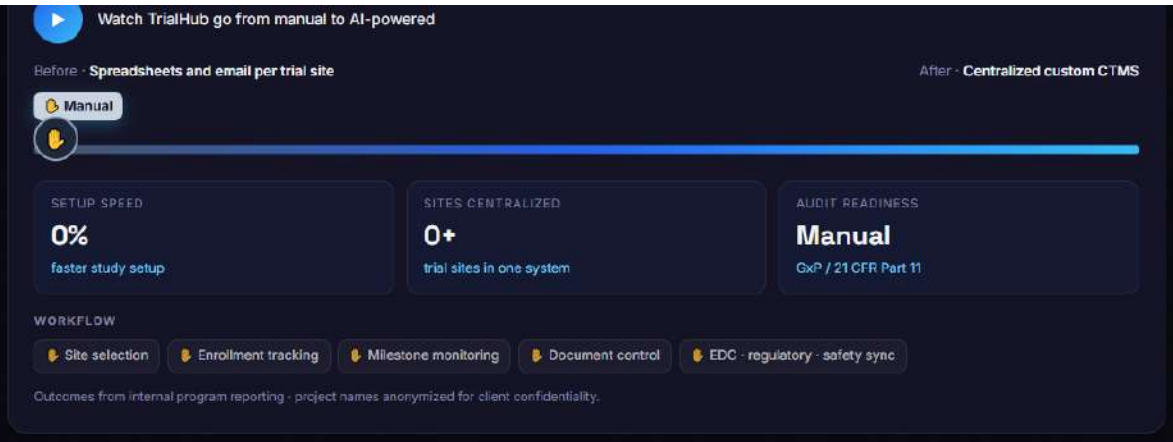

Predictive analytics product that scores a book's market feasibility before publishing, automating go/no-go decisions using historical sales, genre, and market-trend data.

📈 ~30% fewer costly misses + Decision time cut from weeks to a day + ~25% lift in title success rate

Senior Business Analyst / Product Owner

Prophecy Consulting · Client: Otsuka America Pharmaceutical

GxP · 21 CFR Part 11 | Enterprise Medical Affairs | Audit-Ready Delivery

- Led requirements definition and delivery for enterprise Medical Affairs system implementations and upgrades across medical, regulatory, and clinical operations in a GxP-regulated environment.
- Delivered compliant, scalable solutions for scientific exchange, investigator-initiated studies, evidence generation, and medical content management, authoring requirements, user stories, and process flows (Jira/Confluence) aligned to 21 CFR Part 11, FDA, EMA, and SOPs.
- Ensured audit readiness through IQ/OQ/PQ, UAT, and validation documentation, and enabled Medical Affairs KPIs and reporting while driving change management and successful system adoption.
